FMO has established a new program called "Nasira+" to stimulate financial intermediaries to lend to underserved entrepreneurs.

Nasira+ is a risk sharing program in the form of structured portfolio guarantees. The overall goal of the Nasira+ program is to contribute to the Sustainable Development Goals Gender Equality (SDG5), Reducing Inequalities (SDG10) and Climate Action (SDG13). Nasira+ does that by providing financial intermediaries with credit protection to support underserved entrepreneurs they would usually consider too risky. These entrepreneurs include young, female, migrant entrepreneurs, MSMEs located in rural areas, operating in agricultural value chains, MSMEs in LDCs, fragile states and EU Priority Countries as well as MSMEs and retail end-beneficiaries who are looking for green solutions.

To ensure the successful implementation of the program, a Project Management Officer (PMO) will be engaged for a one-year period. The PMO will play a pivotal role in supporting the Project Manager, planning, and managing critical tasks, including procurement, coordination, and documentation.
