### PART A — CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the Base Prospectus dated 2 June 2014, which constitutes a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Directive (Directive 2003/71/EC as amended by Directive 2010/73/EC) (the "**Prospectus Directive**"). This document contains the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the Base Prospectus, as supplemented by the supplement to the Base Prospectus dated 6 June 2014 and the supplement to the Base Prospectus dated 2 October 2014.

The Base Prospectus (as completed by these Final Terms) has been prepared on the basis that, except as provided in sub-paragraph (ii) below, any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of the Notes. Accordingly any person making or intending to make an offer of the Notes may only do so:

- (i) in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer; or
- (ii) in the Public Offer Jurisdiction mentioned in Paragraph 43 of Part A below, provided such person is one of the persons mentioned in Paragraph 43 of Part A below and that such offer is made during the Offer Period specified for such purpose therein.

Neither the Issuer, the Arranger nor any Dealer has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances.

Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms, the Base Prospectus dated 2 June 2014, the supplement to the Base Prospectus dated 6 June 2014, the supplement to the Base Prospectus dated 2 October 2014 and the Conditions. ## SUMMARY OF THE PROGRAMME RELATING TO PUBLIC OFFER NOTES

Summaries are made up of disclosure requirements known as "Elements". These Elements are numbered in Sections A – E (A.1 – E.7). This summary contains all the Elements required to be included in a summary for this type of securities and the Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in a summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary with the mention of 'Not applicable'.

<b>Section B – The Issuer</b>		
<b>B.1</b>	<b>Legal and commercial name of the Issuer</b>	The legal name of the Issuer is Nederlandse Financierings-Maatschappij voor Ontwikkelingslanden N.V. The commercial name of the Issuer is FMO.
<b>B.2</b>	<b>Domicile, legal form, legislation and country of incorporation of the Issuer</b>	FMO is a public company with limited liability ( <i>naamloze vennootschap</i> ) incorporated under the laws of the Netherlands, having its statutory seat at The Hague, the Netherlands. FMO is registered in the trade register of the Netherlands Chamber of Commerce under no. 27078545.
<b>B.4b</b>	<b>Trends</b>	<p>FMO enters 2014 with expected growth in its markets, albeit at slower rates than in recent years. Continued uncertainty, as well as volatile exchange rates in many of FMO's markets could affect the valuation if its private equity portfolio in 2014.</p> <p>The downside risks to the expected economic growth path have increased and various emerging economies such as China, India, Turkey, Indonesia, Argentina and more prominently Ukraine, have come under pressure in late 2013 and into 2014.</p> <p>Especially in Ukraine, where FMO has a size-able investment portfolio, FMO will closely follow the political developments. FMO is in continuous contact with its clients to stay updated on the situation and act if needed and remain vigilant to possible spill-over effects to the surrounding countries. FMO will remain rigorous in monitoring the financial health of its clients throughout 2014.</p>

		<p>With a pipeline that is 10% higher than at year-end 2012 and a well-diversified portfolio supported by an equally strong capital base, FMO can withstand a potential market downturn. However, an adverse economic scenario could have a negative impact on FMO's performance in 2014.</p> <p>In 2014, FMO sees much opportunity in Africa, particularly for agribusiness and private equity. As capital flows move more freely to larger companies, FMO will seek out innovative ways to access smaller firms and players at the lower end of the market.</p> <p>Micro-, small-, and medium-sized enterprises will remain central to FMO's Financial Institutions investments, with greater attention given to green credit lines and broader sustainability initiatives in the sector.</p> <p>For FMO Investment Management, the mainstreaming of impact investing is both an objective and an opportunity, since it means more investors are potentially interested in FMO's funds. Increasing FMO's assets under management will multiply its development impact beyond levels that can be realized on its own. Green transactions will play a bigger role in FMO's other sectors, as well, and FMO will strive to add increasing non-financial value to its clients through consultancy and knowledge transfer, for example in the area of resource efficiency.</p> <p>2014 is the second year of FMO's four-year strategic period. Work to embed FMO's strategy throughout the organization will gather pace as FMO develops and tracks more specific impact indicators for its projects, in support of its aim to double its impact and halve its footprint in 2020. Specifically FMO will develop impact indicators in its newly defined impact framework, bringing its other sectors up to speed with Energy.</p> <p>In general, ever more large companies are putting sustainability at the heart of their operations, taking responsibility for their supply chain and setting more stringent environmental and social requirements for their suppliers. FMO expects this trend to continue, stoking increased demand for FMO's services.</p> <p>Over the next decade, FMO is likely to see the impact investment and traditional investment markets starting to converge. This will bring new players into FMO's markets - something FMO already sees happening in the private equity markets, for example - and will change its competitive landscape.</p>												
<b>B.5</b>	<b>Organisational structure</b>	The outstanding shares in the share capital of FMO are held by the Dutch State (51%), with the remainder (49%) held by commercial Dutch banks (such as ABN AMRO, Rabobank and ING), a Dutch union, other representatives of the private sector and certain private individuals.												
<b>B.9</b>	<b>Profit forecast or estimate</b>	Not applicable; no profit forecasts or estimates are made in this Base Prospectus.												
<b>B.10</b>	<b>Qualifications in the audit reports</b>	Not applicable; the audit reports with respect to FMO's audited financial statements for the financial years ended 31 December 2012 and 31 December 2013 are unqualified.												
<b>B.12</b>	<b>Selected historical key financial</b>	<p>The selected historical key financial information for FMO is set out below:</p> <table border="1"> <thead> <tr> <th></th> <th>2013</th> <th>2012*</th> <th>2011</th> <th>2010</th> <th>2009</th> </tr> </thead> <tbody> <tr> <td></td> <td>IFRS</td> <td>IFRS</td> <td>IFRS</td> <td>IFRS</td> <td>IFRS</td> </tr> </tbody> </table>		2013	2012*	2011	2010	2009		IFRS	IFRS	IFRS	IFRS	IFRS

#### Section D – Risks

<b>D.2</b>	<b>Key information on the key risks that are specific to the Issuer</b>	<p>By investing in Notes issued under the Programme, investors assume the risk that FMO may become insolvent or otherwise unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in FMO becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur. The inability of FMO to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons. Additional risks and uncertainties not presently known to FMO or that it currently believes to be immaterial could also have a material impact on its business operations. FMO has identified a number of factors which could have an adverse effect on its liquidity position and ability to fulfill its obligations under the Notes independently.</p> <p>The material risks FMO faces in its operations include the following risks:</p> <ul style="list-style-type: none"> <li>• FMO's most important risk is credit risk, particularly as a result of it having to take risks that commercial market parties are usually not prepared to take. If a substantial number of the clients in FMO's loan portfolio fail to repay their loans in full, or if a substantial number of such other counterparties fail to meet their contractual obligations, FMO could experience an operational loss, which could reduce its profitability and lower its equity base;</li> <li>• Changes in the level of currency exchange rates, interest rates, credit spreads included in interest rates (caused by the market perception of credit risk, liquidity risk or other risks) and changes between different types of interest rates may negatively affect FMO's business by decreasing its interest income;</li> <li>• Ratings downgrades could have an adverse impact on FMO's operations and financial condition and could, in turn, impair FMO's access to liquidity;</li> <li>• Negative effects from FMO's procedures, information systems and/or</li> </ul>
------------	---	---

		<p>employees, advisors or contractors can increase costs and/or other liabilities for FMO, and can negatively affect FMO's profitability and reputation;</p> <ul style="list-style-type: none"> <li>• The State's involvement and/or financial support may over time be decreased substantially or terminated altogether and alter FMO's risk profile, financial position or future prospects and any such decrease or termination may have an adverse effect on FMO's financial position, credit rating and results of operations, which could have a negative impact on the risk profile of FMO;</li> <li>• Due to the economic crisis, it may be more difficult to obtain funds and it may be more expensive to fund FMO, it may be more difficult to hedge risks, the risk that counterparties default on their obligations might increase, investments might lose value, the solvency of FMO might suffer, and assets/investments might be less liquid;</li> <li>• Impairment losses may occur on certain balance sheet items; and</li> <li>• Changes in the financial services laws and/or regulations governing FMO's business may adversely affect its operations or profitability.</li> </ul>
D.3	<p><b>Key information on the key risks that are specific to the Notes</b></p>	<p>The key risks that are specific to the Notes, include the following risks:</p> <ul style="list-style-type: none"> <li>• the risk that exchange rates may change significantly and the risk that authorities with jurisdiction over the relevant currencies may impose or modify exchange controls or may dispose of the relevant currency.</li> <li>• Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should: <ul style="list-style-type: none"> <li>• have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus and any applicable supplement;</li> <li>• have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;</li> <li>• have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes;</li> <li>• understand thoroughly the terms of the Notes and be familiar with the behaviour of financial markets;</li> <li>• be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investments and its ability to bear the applicable risks;</li> <li>• be aware that it may receive no interest;</li> <li>• A potential investor should not invest in Notes unless it has the expertise (either alone or with a financial adviser) to evaluate how the</li> </ul> </li> </ul>

		<p>Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio;</p> <ul style="list-style-type: none"> <li>• Notes issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market, and there is no assurance as to the development or liquidity of any trading market for any particular Series or Tranche of Notes;</li> <li>• The Notes may be redeemed prior to maturity;</li> <li>• One or more independent rating agencies may assign ratings to the Notes and/or FMO, and such ratings may not reflect the potential impact of all risks related to structure, market, and other factors that may affect the value of the Notes or the standing of FMO;</li> <li>• Because the Global Notes are held by or on behalf of Euroclear, Clearstream, Luxembourg and/or Euroclear Netherlands, investors will have to rely on their procedures for transfer, payment and communication with FMO;</li> <li>• The conditions of the Notes are governed by either Dutch law or English law as in effect as at the date of this Base Prospectus, and no assurance can be given as to the impact of any possible judicial decision or change to Dutch law, English law or administrative practice after the date of this Base Prospectus, including but not limited to, the introduction of, and changes to, taxes, levies or fees applicable to FMO's operations (such as the imposition of a financial transaction tax);</li> <li>• If implemented in its current form, the financial transaction tax ('FTT') imposes a charge on financial transactions including purchases and sales of financial instruments, such as the Notes; this charge will be levied at not less than 0.1% of the sale price;</li> <li>• The Issuer will under, and subject to the terms and conditions of, the agency agreement ensure that it maintains a paying agent in a member state of the European Union that is not obliged to withhold or deduct tax pursuant to the EC Council Directive 2003/48/EC on the taxation of savings income or any other directive implementing the conclusions of the ECOFIN Council meeting of 26th-27th November, 2000 or any law implementing or complying with, or introduced in order to conform to, such directive. Failure to do so may result in payments of interest under the Notes becoming subject to withholding tax under local laws transposing such directive;</li> <li>• The U.S. Foreign Account Tax Compliance Act may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding, and may, under certain circumstances, also affect payments to an ultimate investor that is a financial institution;</li> </ul>
--	--	---

		<ul style="list-style-type: none"> <li>Pursuant to implemented and proposed banking legislation for ailing banks the relevant regulator may use its powers in a way that could result in subordinated and/or senior debt instruments of FMO, such as Notes, absorbing losses;</li> <li>If, during the term of the relevant sustainability notes, no green finance projects or inclusive finance projects will be found that comply with FMO's core environmental and social requirements, the net proceeds of the issue of such notes will remain in FMO's liquidity portfolio and may temporarily be used for different purposes in case of liquidity stress situations, which can negatively affect FMO's reputation.</li> </ul>
